Many people travel to enrich and enjoy themselves. However, their travel methods may be different each year. Here has picked out three popular travel methods in 2023.

#### Solo Travel

Traditionally, travel seems to be a group activity that involves having fun together and avoiding loneliness. However, solo travel has become popular, especially among young people.

Travelling on your own means that you are the boss of everything, choosing wherever you want to go, whatever you eat and whenever you go out. Travelling to a new place on your own can be challenging. It opens up your mind to new things and pushes you out of your comfort zone(舒适区).

#### Virtual Tourism

World travel can be expensive. But virtual reality (虚拟现实) can help people travel for little cost. With ever-improving headsets, smartphones and Wi-Fi connections, people can have a 360-degree experience of museums, theme parks and historical sites. With these technologies, visitors can experience the surface of Mars with just a headset, or view a sea cow before their eyes in a museum.

#### Deep Travel

There are always some “must-see” spots anywhere you travel. But travelling in such places always brings problems such as overcrowding and noise. In order to have a better travel experience, many tend to visit less famous places. With less transportation and fewer things to do, people slow down and notice the little things. Take a walk, ride a bike, sip coffee a little slower, take a deep breath and explore the natural scenery.

Did you see the TV series *Meet Yourself* during your winter vacation? In the TV series, the heroine, Xu Hongdou, travels to a village in Yunnan Province and volunteers at a local cafe. She gets free meals in return. As the TV series has a growing audience, volunteer travel, an old-yet-modern form of travel, has attracted more attention.

Volunteer travel refers to taking a trip with the purpose of helping others. During the trip, volunteer travellers often provide services like teaching, cooking, animal

care, and cultural activities. In exchange for their help, the volunteers may get free or discounted accommodation(住宿), meals or activities.

These long journeys seem to be possible only in recent years by modern transportation. However, volunteer travel dates back to the 1960s. Alec Dickson and his wife Mora from the UK founded Voluntary Service Overseas (VSO), an international volunteer organization. Traditionally, the volunteer activities take place in a foreign country. However, in recent years, more volunteer trips have taken place within the same countries.
